Topic: Tourist places in Risaralda, Colombia

LOCATIONS:
SANTA ROSA DE CABAL & LOS NEVADOS NATIONAL PARK

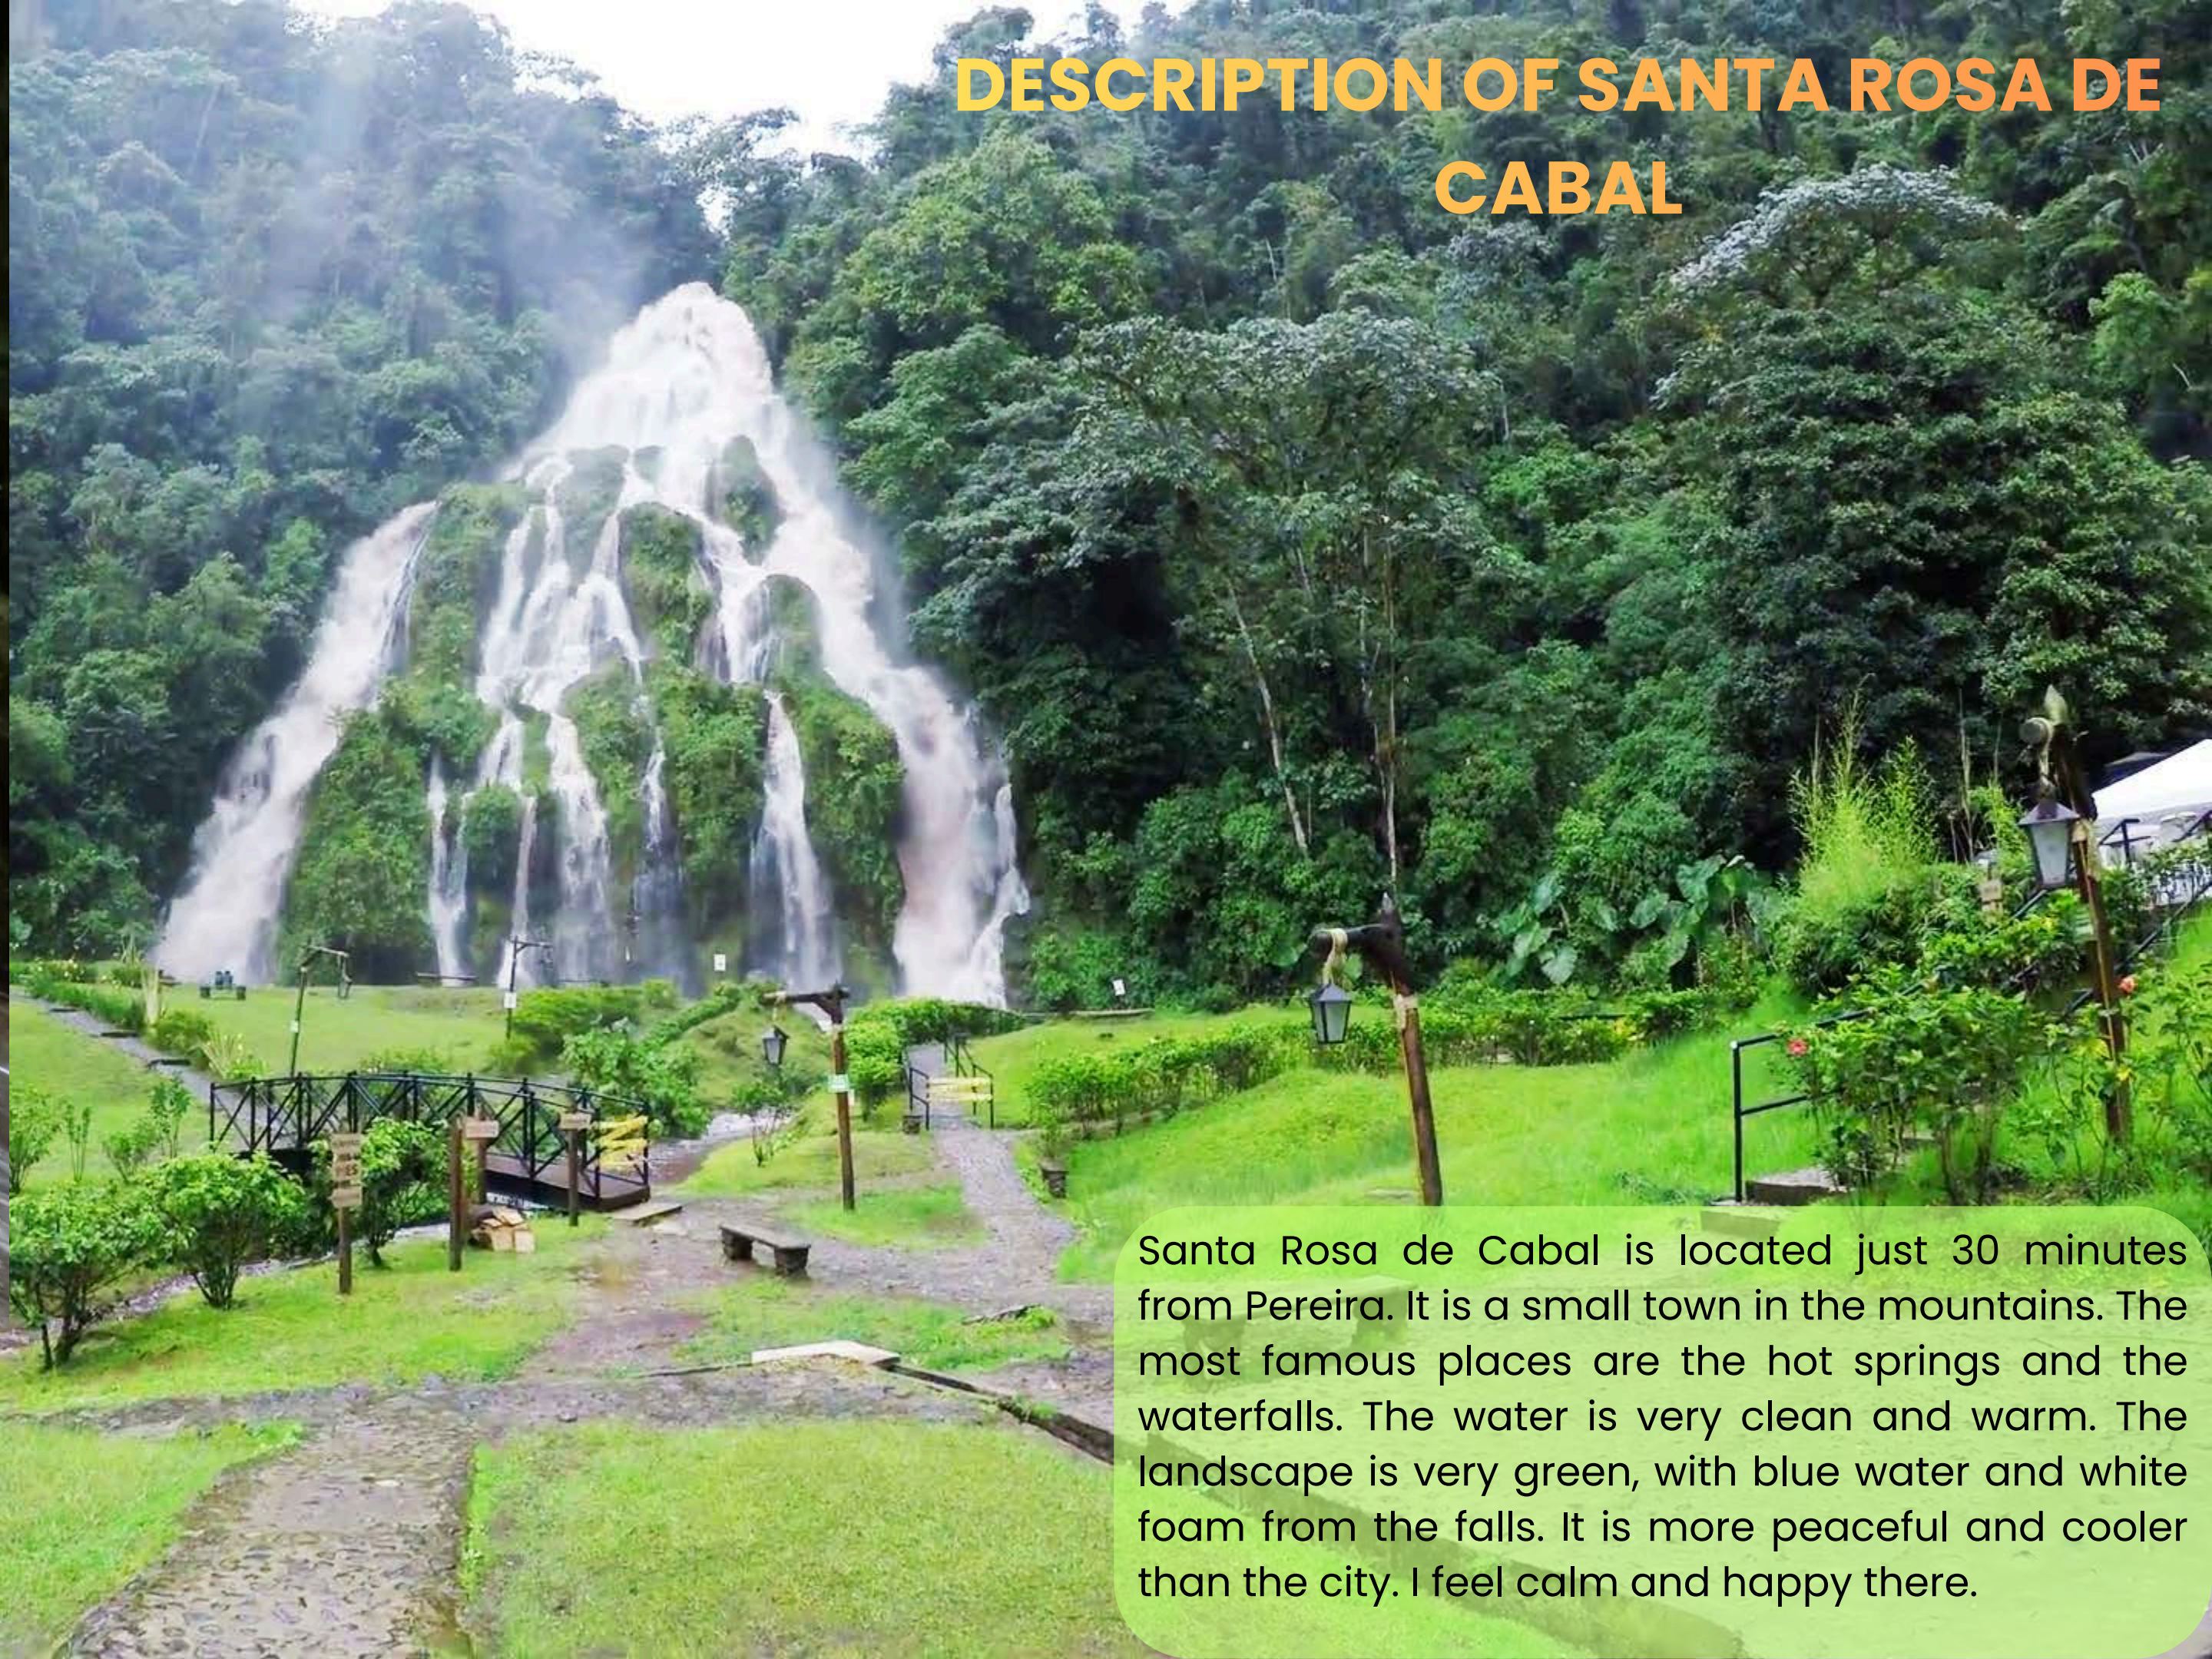

Hello everyone. My name is Carlos Fernery Cano Ospina. I am from Pereira, in the department of Risaralda, Colombia. Today I will talk about two amazing tourist places in my region: Santa Rosa de Cabal and Los Nevados National Park.

Todo el mundo sabe que **Colombia** 🇨🇴 es lindo... Si, pero **no asi de lindo.**

DESCRIPTION OF SANTA ROSA DE CABAL

Santa Rosa de Cabal is located just 30 minutes from Pereira. It is a small town in the mountains. The most famous places are the hot springs and the waterfalls. The water is very clean and warm. The landscape is very green, with blue water and white foam from the falls. It is more peaceful and cooler than the city. I feel calm and happy there.

IMPORTANT ELEMENTS AND SENSATIONS IN LOS NEVADOS

Termales 

"The other place is Los Nevados National Park. It is higher than Santa Rosa, more than 4,000 meters above sea level. Here you find the 'frailejones' – unique plants that capture water.

There are also small lagoons and sometimes snow on the mountains. The sensation is peace and wonder.

It is very cold, but it makes me feel happy and connected to nature."

Let me describe one important element in detail: the frailejón plant. It has a thick stem with fuzzy leaves. It can live for more than 100 years.

This plant captures mist and stores water, which creates the rivers that give water to millions of people. You only find it in the paramo ecosystem.

That is why I chose these places: because they are unique, natural, and they make me feel proud of Risaralda. I recommend you visit them.
